Good afternoon all,

Thank you for your time today to discuss the upcoming project for CareConnect for low vision care recipients and their care givers. Below are the takeaways from today's meeting. Should we have any further questions, we'll be sure to reach out!

1. Our team is to create at least 10 screens per platform for CareConnect:

User Type	Platform	Examples in Document
Care Recipient	Mobile	Daily Anchor, Medications, Panic Help
Family Caregiver	Web	Voice reminders, family portal, messages
Professional Caregiver	Desktop	Dashboard, compliance tracking, activity logs

2. All screens on all platforms will comply with only these WCAG 2.1 AAA Constraints according to *Section 2. Constraints Table* & *Section 3. Detailed Plain-English Explanations*:

C1. Scalable Text & System Accessibility Settings Respected

- 1.3.4 Orientation
- 1.4.4 Resize Text
- 1.4.10 Reflow
- 1.4.12 Text Spacing
- 2.3.3 Animation from Interactions

C2. High Contrast and Never Color-Only Meaning

- 1.4.1 Use of Color
- 1.4.3 Contrast (Minimum)
- 1.4.6 Contrast (Enhanced)
- 1.4.11 Non-text Contrast

C3. Screen Reader Complete — Full Audio Parity

- 1.1.1 Non-text Content
- 1.3.1 Info and Relationships
- 2.1.1 Keyboard
- 2.4.3 Focus Order

- 2.4.6 Headings and Labels
- 4.1.2 Name, Role, Value
- 4.1.3 Status Messages

C4. Predictable Linear Layout for Magnifier and Field-Loss Users

- 1.3.2 Meaningful Sequence
- 1.4.10 Reflow
- 2.4.3 Focus Order
- 3.2.3 Consistent Navigation
- 3.2.4 Consistent Identification

3. AI use is encouraged for all products of the project, including code generation, test coverage generation, and document generation, so long as use is cited (model, version, & context), and team members understand and can explain what has been delivered.

4. Each Week we can submit EITHER a document showing and explaining our screen development for the week, OR a 10-minute video presentation with all team members explaining our screen development for the week.

Thank you,
Crystal Schelmety
Documentation Lead
